1. _____
2. _____
3. _____

Find out who the inventor is and what year the item was invented.

1. _____
2. _____
3. _____

Who Invented This?

Some inventors took ideas from others and made them better. Think about the inventions you chose and decide if they could be better. On a separate piece of paper write a three point paragraph or essay on how the invention could be improved and what the benefits would be of the improvements.

If you feel there is no way to improve any of the inventions you chose write a three point paragraph or essay on why.

If you could invent anything you wanted to what would it be?

How hard or easy would it be to create? What materials would you need?

Make a diagram of your invention labeling the parts. If you are able to try to create your invention. Take your time and ask your caregiver for permission to use tools or other items you need. This can be as simple or as detailed as you would like.

Using a dictionary define the following words and find out where they stem from. Such as Greek/Hebrew what are the root words and what do they mean?

Invention

Inventor

Inspiration

Patent

Enigma

Feasible

Posterity

Phenomenon
